In corroboration of what I have stated above, I beg leave to transmit copies of a dispatch and its enclosures received at the Admiralty from Rear Admiral Sir Frederick Grey, the officer commanding her Majesty's naval forces on the west coast of Africa, which contains the most recent information upon the subject which has reached her Majesty's Government. (From the Louisville Journal.) The New Orleans Affairs, There remains no shadow of a doubt that he revolutionary movement in New Orleans s altogether a concerted plan of the Democratic party to get possession of the city government. It is a sequence of the infamous army bill, passed by the Democratic Legisla-ture of Louisiana more than a year ago, which was so plainly and unequivocally infamous that even the Democratic Governor, aided by his Democratic State officials, dared not attempt its execution. That bill, like this Vigilance Committee movement, contemplated the subjection of the city of New Orleans to the political control of the Democratic party by force. All that is surprising to us is that the city authorities have been so blind as not to anticipate and prepare for the result which

has happened. It is evident to every reader of the New Orleans papers that something of this nature was brewing, and that a desperate coup d'état was contemplated by the Democratic feaders. In the Delta of the 28th, the rabid organ of Democracy in that city, we find the following conclusion of an article upon the Mayoralty election which will occur on Monday next: "Who shall say that in order to purify the

They have been so often defeated as Democrats that they have abandoned the Democrats that they have abandoned the name, and, in accordance with a deeply laid plan, have assumed that of the Independent party with the hope of deceiving into their party with the hope of deceiving into their patriot.

Extravagance of Government Expendent ditures.

From the Washington Correspondence of the Baltimore Patriot. support men who could never be induced to vote for a Democratic candidate. The very name of Democracy is so odious in New Or-

sort to force to secure success. The inde-endent movement was well understood to be pendent movement was well understood to be nothing more than a Democratic trick. We find in the New Orleans papers of the 28th of May a card from one of the gentlemen nominated by these Democratic independents, in which he declines the nomination, and says:

"I think I understand the independent move. It is to get the control of the city out of the hands of the Americans and place it in the tender arms of the old Democratic wire-workers. The whole business looks a little John Sildellish. I have nothing to say against the nominees of the Independents. As a body they are high-minded and konorable citizens, but slightly mixed with old fogyism.

In the New Orleans papers of the same date ve find in a notice published by the executive mittee of this disguised Democratic party the following foreshadow of the "vigilance ommittee" movement:

All quiet and peaceable citizens, of what-soever complexion of politics, are also inform-ed hereby that they can safely go to and return from the polls on the day of the election, without incurring any risk of personal violence or indignity, as ample means and precautions will be taken to secure them against the outrages which have been so common at the lections heretofore. Here is plain indication of what has follow

ed. The mine prepared by the foreign party has already been sprung. The Democrats, under the name of a vigilance committee, have taken possession of the public armorie and in organized bands of armed ruffians pa ballot-box. They have seized the public armories, and insolently demand that the city government shall be placed in their hands. The infamy of this outrage cannot be expressed. It is one of the results of the rule or ruin policy of the Democratic party, and should make all honorable men shrink with horror and aversion from its very name.

Alien Suffrage. We publish to-day an interesting report of

the regulation of the right of ruffrage in the

Territories, which was made to the House of Representatives by Mr. Zollicoffer, of Tennes-see, from the Committee on Territories. The report concludes with recommending the passage of a law by Congress restricting the rights of suffrage and of holding office in the Territories to citizens of the United States, natives and naturalized. The introduction of this bill and report is, we hope, but the beginning of the agitation in Congress of subjects of vi tal political importance that the American party has sedulously urged upon the attention of the people of this country. It cannot be denied that alien suffrage and alien office-holding, in either the States or Territories, are intolerable and very dangerous evils. The practice of permitting aliens to vote, which has been introduced and encouraged by the demogogues of the Democratic and Republican parties, cannot be vindicated upon any principle of right, of justice, or of expediency. It is a political right peculiarly appertaining o citizenship, and above all other privileges t should be confined to those who are citizens. There can be no good reason, says a considerate contemporary, for admitting aliens to vote if there is to be any such thing as citizenship maintained. The Constitution confers upon Congress the right to make "uniform laws on the subject of naturalization," and it has prescribed the terms upon which foreigners may be admitted to citizenship; and the obviou intent, both of the Constitution and of Congress, was to limit the right of suffrage-the sovereignty of the country-to its own citizens, native and naturalized, according to law. This intent has been wholly defeated in several of the States-Illinois among the number rnment of the United States.

But I feel equally asured that great allow
by the passage of separate naturalization acts of their own, completely nullifying the restrictions imposed by Congress. This prac-tice has been justified upon the ground of suppression of the slave trade, who are com-pelled to witness the frequent and unchecked State had a right to say upon what conditions abuse of the American flag in the prosecution any portion of its inhabitants might vote for State officers and take part in other operations

of the trade, and who see that, under the protection of that flag, and in consequence of no American ship-of-war having for nearly a twelve month appeared on the station, the nefarious traffic is now carried on in the most tors of members of Congress is made the same as that of voters for the most numerous branch of the State Legislature. When a State, therefore prescribes the qualifications of voters for its own State officers, it is also prescribing rules for the election of members of Congress. The result is, that, while New York excludes foreigners from the right of suffrage, Illinois admits then; and the "uniformity" which the Constitution expressly empowers Congress to secure is utterly destroyed. It is well asked in this report of Mr. Zollicoffer, "By what rightful authority can Congress presume to extend those potential rights of citizenship to unnaturalized aliens, who owe no allegiance to the Government, who cannot be required to take up arms in its defence, and who could not e punished for treason should they arm themselves and wage war against it in time of war." This suggestion contains the whole gist of the matter. Although thoroughly imbued with the opinion that outside of the Federal Constitution each separate State in the confederacy s sovereign in itself, and has the right to regulate its own domestic affairs in its own way we cannot accord even to the State the right to permit aliens to exercise the privilige of suffrage for officers of the Federal Government, who are to act as trustees of the people of these United States and to legislate for them.

The sole object of the establishment of a uniform naturalization law as directed by the Federal Constitution was to prevent the very state of case which now exists. The question has been argued generally, but not practically, in this report of Mr. Zollicoffer. The evils of the alien suffrage may be brought home to every individual citizen by a little con-ideration of its effects. Were New York, the largest and most populous State in the Union, to incorporate it in her organic laws, and give to every foreigner who lands at her ports the right to vote immmediately for State and federal officers, it is evident that these foreigners, totalcity, crush ruffianism at the polls, to make | ly unacquainted with the theory of our Government and altogether un-Americanized, abuses that have crept into the city govern- of vast and vital importance to the whole

The whole object of confining the passage that of Illinois and Indiana. The unformity of naturalization is thus destroyed. A citizen in Illinois is not, according to State laws, a and the event will inevitably follow.

This is the key note. It is the harbinger of whatever in this particular. With all our tion is set at naught and rendered of no effect the storm that was expected. It is a certain admiration for the doctrine of States' rights indication of the movement that found its con- and the separate and independent sovereignty patches on Thursday. The prodigality and wasteful expenditures name of Democracy is so odious in New Orleans that in all contests at the bailot-box they have for several elections been most signally deleated. They assumed the name of "independents," and called upon Mr. Beauregard to become their candidate for mayor. This call is signed principally by the leading and active Democrats, and by a few of the personal friends of Beauregard who have not recently taken a part in politics. The whole movement was initiated and carried on by leading and active Democrats, who openly boasted that they had raised the large sum of fifty thousand dollars to insure the election of their candidate, and, it that wouldn't do, they intended to resort to force and arms. The whole movement was initiated and carried on by leading and active Democrats, who openly boasted that they had raised the large sum of fifty thousand dollars to insure the election of their candidate, and, it that wouldn't do, they intended to resort to force and arms.

This Beauregard, the Democratic candidate for the Mayoralty, although put forth as an independent candidate, is an office-holder under President Buchanan. He is the Superintendent of the Custom House at New Orleans, and of course is an out-and-out Buchanan man. It was useless for the Democrats to attempt to elect him as a Democrat, and his party assumed another name and determined to

Gentlemen will not find me backward in providing for the President a good income, but I desire to do it directly, and not by indirection. We pay for nearly all the incidental expenses of the President's mansion, and it is only necessary for the Committee of Ways and Means to report an additional item for sundries, to pay Monsieur Gautier the expenses of the President's table.

"If gentlemen desire to increase the compensation of the President, let them say so, and report a bill for that purpose, I am op-posed to doing it in this unconstitutional and indirect mode; I am proposed to paying all these expenses of the President's House, and still give him an annual compensation or

"Party Platforms."

Under this head we groupe together several movements and rumors of movements among the politicians at Washington. It will be seen that the proposed new "Notional Party" will receive no aid or accession from the Black Republicans, who are resolved to stand by their distinctive principles, and to have no part nor lot in the proposed union of all the elements of opposition to the Democracy. We cannot say that we regret this determi nation of theirs, nor is it unexpected to us We have heretofore failed to respond to the suggestion of a union, for two reasons: 1st. that we did not intend to be a party to any movement inviting a union with Freesoilers; and 2d, that we had not the least expectation that the Black Republicans would consent to forego their constitutional opposition to our tinuance of Democratic rule as any politican in the country. We believe that that party country in a constant state of sectional excitement and danger; that it will ever keep on foot some sectional hobby whereby to wheedle and carry the South, arousing and inflaming thereby sectional animosity at the North, and when the crisis comes it will shamefully surrender the rights of the South strike another bargain with Northern Eree- bloom last year. soilers, and be found band in hand with the Van Burens, Douglas, Walker, Stanton of the crop prospects in this section of the Reeder, et al, of that ilk. We have been expecting to receive, by every recent arrival from Texas, accounts of this expedition, and last evening we were gratified by the perusal of a letter from Austin, briefly announcing that Ford has achieved such a victory over the Indians as will most probably cause the survivors to remove quickly and permanently from the northern frontier. The letter states that an express from Capt.

Ford arrived at Austin on the evening of the 26th ult., with the intelligence that the expedition had fallen in with the Indians, and that a running fight covering six miles of ground, had been fought, in which the Rangers were completely victorious.
